

# Neatdek 3 Shower Grilles

Neatdek 3 is the only system on the market that provides **level-access** in its truest sense - **no ridges** and **no gradients**, just a completely level showering area with a smooth surface transition which makes it feel like the rest of the **bathroom floor**. Unlike wet room showers, it keeps the rest of the bathroom dry.

True Level  
Access

## Fire Rating

European Classification A2-s1 d0 and fully compliant with BS EN 13501-1:2018.

## Materials Used

**Load Bearing bars:** aluminium alloy 6082 T6.

**Swage Bars:** aluminium alloy 6082 T4.

Available as a grille with tray or grille with frame, our Neatdek 3 utilises our unique swaged-locked construction, giving an impressive loadbearing capacity of up to 250kg (40 stone).

## Grille Types

**Square:** sizes range from 821mm x 821mm to 1070mm x 1070mm.

**Bath Replacement:** sizes range from a compact 821mm x 1186mm up to 860mm x 1524mm.

**Grille and Tray:** Shower grilles can be installed with matching tray providing water catchment below the floor level - suitable for both solid and timber floors.

**Grille and Frame:** Shower grilles can be installed with a frame but no tray (Not suitable for timber floors). Water catchment is then created within the screed below.

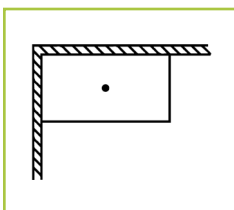

## Dimensions

Our grilles are available in a variety of standard sizes dependant on the type you require. Grilles can also be divided into lightweight sections depending on the configuration.

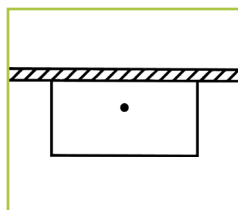

**Surface contact area:** 74% (5mm gap).

## Installation Options

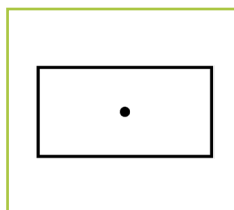

**Left-Handed  
Corner**

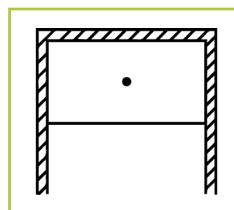

**One-Sided**

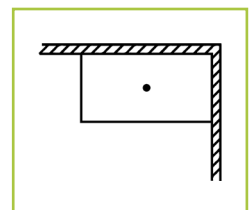

**Oasis**

**3-Wall  
Enclosure**

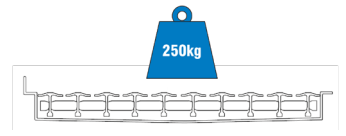

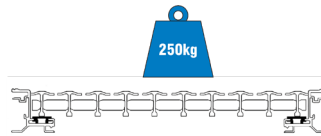

**Right-Handed  
Corner**

## Load Test Data

All Neatdek 3 True Level Shower Grilles and Trays have been proven to withstand loads of up to 250kg without detriment to performance.

## Drainage

Neatdek 3 does not require a sloped surface to assist drainage - the grille is totally gradient-free with a smooth surface transitioning. Substantial free space below the grille provides efficient drainage of up to 25 litres per minute and prevents dangerous pooling. It can accommodate modern powder showers.

## Neatseal

Our Neatseal PVC insert is an optional extra which completely watertight joint which is much more durable than silicon seals.

## Optional Hook

Neatdek 3 does not require a sloped surface to assist drainage - the grille is totally gradient-free. The drainage is that effective that it can accommodate modern powder showers.

## Colours

Our shower grilles are available in two standard colours, chosen especially for non-slip. We can also coat in other durable colours upon request.
